

## About Us

Some may think of us simply as a printing company, but we know we're more than that. We're in the business of *memories*. We don't just print images; we take peoples' special, funny, and poignant moments and bring them to life in a big, bold way.

Whether it's the moment you both said "I do," or the one when your 2 year-old caught a glimpse of Santa, or the gorgeous sunset from your last vacation, why not treasure these memories forever by designing your own prints that can be proudly displayed in your home?

Image Printers makes it incredibly easy for you to customize and order prints using our simple step-by-step guide. Just upload your image from your computer, Instagram or Facebook account – add any special effects and alter the shape of your image – then choose your desired frame: either acrylic, canvas, metal, glass or wood. It doesn't get much easier than that!

We pride ourselves on providing quality products at the best possible prices. Our printing experts are always on hand to help you with your order, and our customer service is bar none.

*You've captured the moment... now let us bring it to life for you.*
